

Kevin E. Freeman:

I literally could not get up. I'm 47 years old. So eventually I probably will have to have surgery. My name is Kevin E. Freeman. I live in Caroline County, Virginia. I had an accident in a Walmart. I was walking to a register. They had left a chain on the floor. Slipped on the chain and fell in the store. Couldn't get up. I've got a herniated disc on L4 and L5. Their insurance contacted me and was extremely nice all through the whole process until it was time to settle. The caseworker went from a queen to a beast. She offered me a low ball offer so low, I told her, "How about to be paying you there?"

Kevin E. Freeman:

I do some courier work for a bank. Keith was one of our bank's customers. I called on Mr. Keith Marcus. He jumped right on the case, and it was a breeze. He said, "Kevin, don't you worry about anything. I'll take care of everything. I'll keep in touch with you." And all through the process, he did that. Not so many lawyers are people persons. So you can tell that he cares. He's going to have your back at any time, all the time. Keith gave me a good settlement. I was extremely happy with Keith's number. The perfect client for Keith Marcus is someone that's in a bind, stuck in a hole, can't get out. And there's only one person that they can call to help them out, and that's Keith Marcus. He's going to do everything in his power to help you out and keep you as comfortable and ease your mind as much as he can.
